How To Use:

Searching Your Notes

Once you begin to add notes, you can look them up by a list of **Topics** or **Questions** you designate, or you search on keywords to help you find them.

Resulting Notes

Once notes are added and you select a search option, then the results populate

Selecting a Note

Once one or more notes populate, you select a note by tapping on it. Each note will have a **Summary** about the note, the **Type** of source, and the note source and author because each note entered has required fields at the time of entry.

Search Menu

The Search Menu allows:

1. Create, Open, or Delete a database
2. Adding and Importing Notes
3. Reviewing note you mark to delete
4. Clearing to start a new search
5. Help

**** Review Notes for Delete** will be active when a note has been marked for delete on the View Note page. These notes will not show up in regular searches while they are marked for deleting. Selecting them will allow you to delete them on the **View Note** page.
